More people are smoking CAMELS than ever before!

AS A SKIER, lovely Blanche Christian is "one in a million"—an expert with wide experience. As a smoker, she is one of millions who had a most revealing experience during the wartime cigarette shortage.

"When cigarettes were hard to get," says Miss Christian,
"I smoked many different brands. Naturally, I compared
hem for quality. I learned by experience that Camels suit
me best!" Like Miss Christian, thousands of smokers compared... found Camels he "choice of experience."

Try Camels. Let your own experience . . . your "T-Zone" tell you why more people are smoking Camels than ever before.

According to a Notionwide survey:

More Doctors Smoke Camels THAN ANY OTHER CIGARETTE

When 113,597 doctors were asked by three independent research organizations to name the cigarette they smoked, more doctors named Camel than any other brand!
